FEATURED SCHOLAR:

Jemar Bernardino

24 years old
San Luis, Pampanga
Barista/Stock Clerk
La Rose Noire Training Center
(story on page 2)

ABOUT THE FOUNDATION:

La Rose Noire Foundation is the charitable arm of La Rose Noire Philippines. It was established in 2016 and was recognized and accredited by the Philippines Department of Social Welfare and Development as such in the same year. It has three main programs- Scholarship, Livelihood and Training. Currently, it is supporting 100% 30 underprivileged youth who are training to become pastry chefs under the La Rose Noire Training Center.

Featured

Scholar

Jemar's first application as a scholar was initially denied due to questionable activities from his past. However, he was able to prove his sincere desire to be part of the Foundation's scholarship program by consistently following up and applying for the second time. And this time, his determination paid off as he became part of the Class 3 scholars.

Jemar grew up helping his parents cultivate seasonal vegetables in a small land they inherited from his grandparents. He was not able to continue on with his tertiary education as with his other siblings due to the financial status of the family.

Although admittedly not that strong academically, his stay at the Foundation showed how much progress he has had with regards to the skills that he had acquired.

He is currently the official Barista and Stock Clerk of the La Rose Noire Training Center, Inc. He also practices his baking skills by assisting during baking classes and mastering Artisan Breads.
